

# Curriculum Vitae

## **Personal data**

Name: CSÉCSY László

Location: [Nagykőrös, Hungary](#)

Nationality: Hungarian

E-mail: laszlo.csecsy at our company, kybest.hu

Mobile: +36305860729

Year of birth: 1977

Occupation: full-time regional manager and lead developer at [KYbest](#)

I am a Christian, married since 2002, father of two sons (since 2004 and 2007), and I like working on open-source projects.

## **Knowledge**

Programming languages: PHP, JavaScript/jQuery (very good knowledge), Bash, C, Python (working experience)

Human languages: Hungarian (native), English (fluently written, reasonably spoken)

Operating systems (administration): Linux (very good knowledge), Windows (basic working experience)

Experience with developing in/for some middle-to-large-scale multi-developer open-source projects ([Frugalware Linux](#) since 2005, [Drupal](#) since 2007)

## **Education**

University of Szeged, Faculty of Science and Informatics: majored in computer science as a teacher of informatics (2003-2008)

Károli Gáspár University of the Reformed Church in Hungary, Faculty of Teacher Training, Nagykőrös: majored in man and society culture area as a teacher of elementary school and reformed religion (1997-2001)

## Work experience

Full-time job at [KYbest](#) (since 2007, as a regional manager since 2008, as a lead developer since 2009)

Individual entrepreneur, mostly as a computer programmer and administrator (2004-2007)

Author of [aprOmega](#), the advertising solution of KYbest's (since 2004)

## Interests

Working on open-source projects as a free time hobby (like [translating Drupal to Hungarian](#))

Linux as a lifestyle

Biking and geocaching

[Music notation](#) and singing

Different activities in and for our congregation

## Drupal work

Contributed several modules by myself: [Language Checker](#), [Comment Timer](#), [CTOG](#), etc.

Committed directly to others' modules: [Advanced comment](#), [Path Access](#), etc.

Built several Drupal-based sites by myself (with custom modules and themes): [csecsy.hu](#) (family site with a twist of [TAC Lite](#)), [sdg.org.hu](#) (migrated hundreds of content items from PostNuke), <https://blue.kybest.hu/pm/> (the company's project management site, with [Organic groups](#), [Case Tracker](#), [Messaging & Notifications](#)), etc.

Built several Drupal-based sites in a team: a [food ordering site](#) (provided a CSV import facility that imports menus from their desktop application), a [nursery's site](#) (theme is done by a contractor of our company, everything else was mine), etc.

Using Drupal as a web application framework in [aprOmega.com](#).

Providing services by utilizing Drupal with aprOmega and [Drupal Sentry](#) (a two-men project with a [friend](#)).

Attended some Drupal conferences: [DrupalCon Szeged 2008](#), [Drupal Konferencia 2008](#), [Drupal Hétfége 2009](#) (Drupal Weekend 2009, as a presenter and a one-man video "team"), [Drupal Tábor 2010](#) (Drupal Camp 2010, with two presentations and a [dedicated site](#)). Going to attend [Drupal Hétfége 2010](#) (Drupal Weekend 2010) as a presenter.

[Continuously patching Drupal to make it even better!](#) ;)
